TRAINING

Call us
INDUSTRIAL HYGIENE RESOURCES
(208) 323-8287

We are accredited by the EPA
to conduct the Lead Renovation, Repair,
and Painting (Lead-RRP)
Certified Renovator Initial Course

DON'T WAIT
DEADLINE: April 22, 2010

- * Firms must be Certified by the EPA and have one or more Certified Renovators when disturbing lead-paint in pre-1978 child-occupied facilities or residences.
- * Renovation Workers must also be trained. Certified Renovators are responsible for conducting lead-safe practices and training of the other workers.
- * EPA's Renovation, Repair, and Painting Final Rule 40 CFR 745 affects:
 - * Painters
 - * Home Improvement Contractors
 - * Rental Property Managers & Owners
 - * Remodelers & Carpenters
 - * Plumbers
 - * Electricians
 - * Maintenance Personnel
 - * Workers disturbing painted surfaces
 - * Anyone disturbing more than 6 ft² of interior paint and & 20 ft² of exterior of lead paint

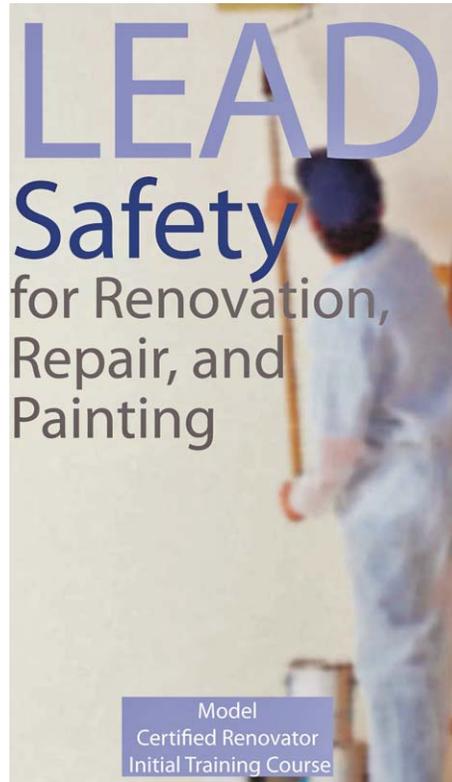

Lead dust from renovation work can cause lead poisoning in: children, pregnant women, yourself, other workers, and even pets.

This course was developed by EPA in collaboration with the U.S. Department of Housing and Urban Development (HUD) to train Renovation, Repair, and Painting contractors on how to work safely with lead-base paint and comply with EPA's Renovation, Repair, and Painting (RRP) Rule, and HUD's Lead Safe Housing Rule.

EPA's Renovation, Repair, and Painting Final Rule 40 CFR 745:

Requires that renovations conducted for compensation must be performed by Certified firms using Certified Renovators. This includes landlords and their employees. Renovation firms wishing to work on pre-1978 homes and child-occupied facilities must apply and be certified by EPA. Renovators seeking to become Certified Renovators must successfully complete the EPA accredited renovator course.

Lead-Certified Renovator-8 Hour Initial Course Overview
