Parker's Sand & Gravel	Yes	Yes	No	No
Zollinger Construction	Yes	No	No	No

3/21/2016

NOTE: This list will be updated as new sources or aggregate/media become approved. Please visit <http://eiph.idaho.gov/EH/Septic/Septicprogramresources.html> and click on the link under **Additional Septic Program Services** to view our most current list.

Health District approval of an aggregate or construction media source only provides **verification that the source is capable of producing** these materials in conformance with the material specifications.

The Health District may still disapprove drainfield aggregate or construction media if it becomes contaminated during processing, loading, transport, storage or installation either at the source location or at a subsurface sewage disposal installation site. It is the responsibility of those processing, providing, transporting, storing or installing the aggregate or media to ensure the drainfield aggregate or construction media maintains its approved characteristics (i.e. size and cleanliness).
