Sponsored by

Eastern Idaho AEYC Fall Track Training

- Health: **A.M.: Kaylene Craig;** Bachelors Degree in Community Health Education and a minor in Nutrition. Kaylene currently works as a Health Education Specialist at Eastern Idaho Public Health District and coordinates the Physical Activity and Nutrition Program.
Title: Color Me Healthy - This comprehensive training teaches creative and effective ways to use *Color Me Healthy*, a program to help teachers easily incorporate healthy eating and physical activity in the preschool classroom. *Color Me Healthy* uses color, music, and exploration to teach children about fruits and vegetables of different colors. A materials kit will be provided for each pre-school registered.
- P.M.: Mimi Morgan;** Master's Degree in Health Promotion and Exercise Science and a Bachelor's Degree in Physical Education. Mimi currently works as a Health Education Specialist at Eastern Idaho Public Health District.
Title: No Sun for Baby and Sun Safety for Kids- Skin cancer prevention strategies that can be easily implemented at child care facilities will be discussed. Educational materials will be provided to participants to help them in teaching skin cancer and sun safety policies to their staff, the children they serve, and their parents and families.
- Literacy: **A.M.: Ann Ahrendsen;** Bachelors Degree in Elementary Education, Parents as Teachers educator for 8 years, taught preschool 4 years, in home child care 10 years. Ann is currently teaching 1st grade. She is passionate about the importance of early education.
Title: Setting the Literacy Foundation in the Early Years. - The why's and how's of early literacy, a critical element for a child's later success in school. Lots of ideas and some fun included!
- P.M.: Julee Sidwell;** Bachelors Degree in Elementary Education, 15 years experience in Early Childhood Education. Loves to help children have fun learning and gain self confidence as they prepare for kindergarten.
Title: Teach with Books! - This training will help you teach math, music, art, science and reading each day with the use of a simple children's book. We will read a book and develop a curriculum that is meaningful and fun for your class. This will be a hands-on, make it and take it training!
- Sensory: **AM: Margaret Meacham;** Bachelor in Child Development and Elementary Ed. M.Ed. in Family and Child Studies. 32 years experience as a teacher in private preschools and public schools as an Early Childhood Special Education Teacher. Montessori Certification for Birth to Six years. I currently work as the lead Toddler Teacher at Lighthouse Montessori School.
Title: Sensory Exploration with Infants and Toddlers- Infants and toddlers naturally want to use all their senses to explore the world. We will discover ways to set the environment for engaging and safe activities in all the senses.
- P.M.: Becky Parker;** Masters Degree in Early Childhood Special Education with 20 years of experience teaching young children with disabilities. She specializes in working with children with challenging behavior and Autism spectrum disorders.
Title: Guiding children with Challenging Behaviors- Many children demonstrate challenging behavior due to sensory overload in their environment. These include children with ADD, ADHD, Autism, Oppositional Defiant behavior and mood disorders. Information will be provided to help the provider determine if the cause of the negative behavior is due to sensory overload or sensory defensiveness.
