Committed to the concept that children, adolescents, & adults with challenges to their mental health can best be treated in the situation where the difficulties are occurring. By offering treatment, such as Psychosocial Rehabilitation, where the problems happen, it is possible to vastly increase the opportunity for treatment gains to be generalized by the child, adolescent, or adult & their respective environments. In addition, clinic based services such as counseling & psychotherapy (talk therapy, play therapy, art therapy, sand tray therapy) assist our clients in developing greater insights & a deeper understanding into their current behaviors. Psychotherapy provides opportunities for individuals, couples, & families to change their thoughts, feelings, & behaviors in order to achieve more productive outcomes in their various environments & to achieve their self-determined goals. Medication management offers medical support through pharmacological treatment for those whose symptoms interfere with their daily functioning.

We are a private non-profit with decades of experience serving Idaho Falls and the surrounding area. Our trained professionals work in cooperation with other agencies to provide help and care for those affected by domestic violence and sexual assault. Our goal is to reduce the tolerance for violence within our community by providing public education and other services. We seek to overcome the stigma often experienced by those affected by domestic violence, teen dating violence, and sexual assault. These crimes are preventable. Together, as a community, we can change the way violent crimes are viewed and tolerated.

Peer support and advocacy.
The National Federation of the Blind knows that blindness is not the characteristic that defines you or your future. Every day we raise the expectations of blind people, because low expectations create obstacles between blind people and our dreams. You can live the life you want; blindness is not what holds you back.
The National Federation of the Blind is the world’s largest advocacy group for the blind run by the blind themselves. Our mission is to advocate for the equal treatment of the blind, and to show that it is respectable to be a blind individual.
The NFBI takes great concern with the education of blind children. We work hard to make sure that blind children have equal access to materials, as well as equal access to instruction. The NFBI also assists in training, and employment assistance for the blind.

Protection and advocacy for disabled persons.  
A non-profit, advocacy agency serving people with disabilities in Idaho. Advocacy means to speak on behalf of a person or a cause. It comes from a Latin root meaning “to give voice to”. DRI gives people with disabilities a voice to assert and defend their own rights through information, education and individual assistance. We give people a voice in court through legal representation. We give people a voice in government through public policy advocacy. We advocate for all people with disabilities in Idaho regardless of the type of disability or the age of the person. We help people with disabilities to: address abuse and neglect; obtain services and supports they need to live, work and play in their own homes and communities; get an appropriate education; access to health care; find and use vocational services and get support for employment; redress discrimination; and achieve equal access to buildings and services.

www.ipulidaho.org
Advocacy, training, information, and support for parents of children and youth with disabilities. Idaho Parents Unlimited, Inc. (IPUL) is a statewide organization which houses the Idaho Parent Training and Information Center, the Family to Family Health Information Center, Idaho Family Voices, the Creative Access Art Center and VSA Idaho, the State Organization on Arts and Disability.

The Parent Training and Information Center ensures that parents of children with disabilities receive training and information on their rights, responsibilities, and protections under the Individuals with Disabilities Education Act (IDEA) in order to develop the skills necessary to cooperatively and effectively participate in planning and decision making relating to early intervention, educational, and transitional services.

As the State Family Voices Affiliate and the Family to Family Health Information Center, IPUL assists families in making informed choices about health care; provides training, information and resources to families of children with special health care needs. VSA Idaho empowers and engages people with disabilities in the creative process through opportunities which are fully inclusive, educational and participatory. VSA Idaho creates opportunities by providing professional training and workshops, developing state initiated projects and implementing successful national programs. VSA Idaho in cooperation with funding through various sources such as the State Department of Education and the Idaho Commission on the Arts provide opportunities for artists to work alongside teachers providing quality arts education to students with disabilities throughout the state.

Peer support and advocacy. The National Federation of the Blind knows that blindness is not the characteristic that defines you or your future. Every day we raise the expectations of blind people, because low expectations create obstacles between blind people and our dreams. You can live the life you want; blindness is not what holds you back. The National Federation of the Blind is the world’s largest advocacy group for the blind run by the blind themselves. Our mission is to advocate for the equal treatment of the blind, and to show that it is respectable to be a blind individual.

The NFBI takes great concern with the education of blind children. We work hard to make sure that blind children have equal access to materials, as well as equal access to instruction. The NFBI also assists in training, and employment assistance for the blind.
