HPV Vaccine Available at Eastern Idaho Public Health Offices in February for People Ages 11-26 at No Cost

(SE Idaho) – Human Papillomavirus (HPV) is a group of viruses linked to multiple health conditions, including six different types of cancer. HPV is a very common virus; nearly 80 million people—about one in four—are currently infected in the United States. About 14 million people, including teens, become infected with HPV each year. Fortunately, there is a vaccine available to prevent HPV infection.

As cancer prevention advocates, EIPH will be providing HPV vaccine, at no cost, on specific dates during the month of February 2022 throughout the health district. Information is listed below:

Date/Time:	February 2022. Varies by office location.
Place:	EIPH offices throughout our eight-county region
Who:	Individuals ages 11-26. Some people ages 27-45 may qualify.
Appointments:	Call to schedule and ask any questions.

***See calendar on next page for full details.**

###

#PreventCancerTogether

In February, we are offering the HPV vaccine to people ages 11-26 at no out of pocket cost.

*Some adults ages 27-45 may be vaccinated. Call for more information.

Please call to make an appointment.
